

## USE OF A TRANSFER BELT FOR TRANSFERS

**Transfer belt is positioned snugly around client's waist:**

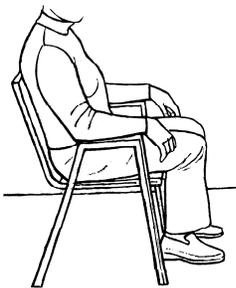

**Correct position**  
Normal use

**Use here only if client has**  
colostomy bag or is pregnant.

**Transfer belt used for transfer and/or walking:**

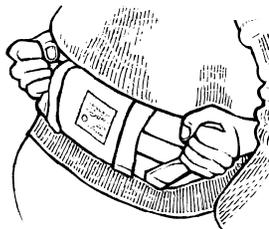

**Client moves hips**  
forward in chair.

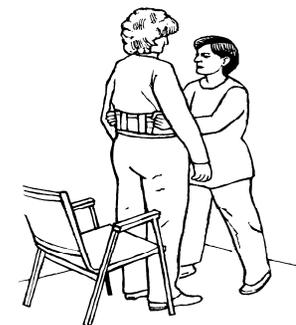

**Care provider puts**  
T. belt around waist  
and encourages  
client to push down  
on armrests of chair.

**OR**

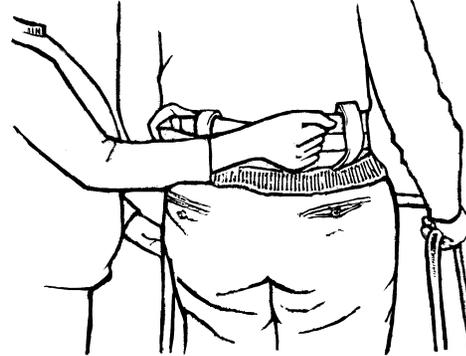

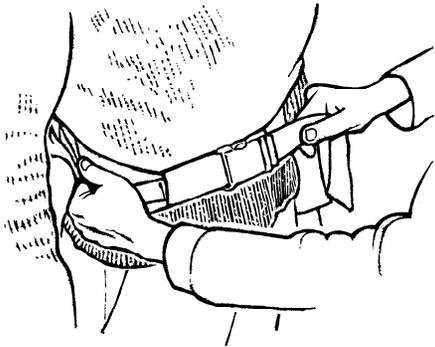

**Care provider grasps**  
loops, pulls and holds  
client towards self.  
Care provider stands  
up drawing client up  
into standing position.

## USE OF A TRANSFER BELT FOR ASSISTED WALKING

Transfer belt used for transfer and/or walking continued...

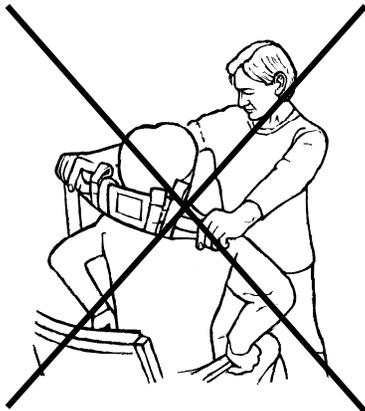

Upon standing, belt will need to be tightened.

**PLEASE REMOVE TRANSFER BELT AFTER TRANSFER OR WALK.**

**DO NOT:**

Put belt over someone's head

OR
