### **UPDATED:** Printer supplies to be automatically delivered as of April 1

Effective April 1, 2021, MDA will no longer supply toner and ink cartridges or related supplies for government-issued printers.

For network-connected printers, supplies will be automatically delivered when the printer detects low toner levels or if replacement supplies are needed. Auto-deliveries will be to the printer's address on record and will include maintenance kits, fuser kits and roller kits. (Staples are not included.) WBM Technologies will be contacting you to see if you have existing toners, etc. still to be used, and will not send you excess or unneeded products.

Requests for printers not connected to the network can be initiated directly in the eService Portal: [https://gom.service-now.com/ess/GOM\\_Printing.do](https://gom.service-now.com/ess/GOM_Printing.do) Toner and ink will be delivered by the vendor as requested. There is no "out of pocket" cost for toner and ink as it is included in the monthly managed service fees for the printers.

For returning empty toner cartridges, WBM Technologies will provide a link to download and print a pre-paid packing slip. Keep this link available for future returns. Place consumables into regular mail (Canada Post) rather than Inter-departmental mail. MDA will not be accepting or recycling the empty cartridges of products purchased after March 31.
